Comments:

Mr. Stoesser, I have just read your account of John Kasun on My Town. You need to get your facts straight. I have known him since I have lived here for 40 years on Beulah Ln. He was practically in my back yard. You know nothing of him. His kids were taken away from him many years ago because of the conditions they were forced to live in. My kids growing up were afraid to go by his house. He was always going through people's garbage on pick up days. He was mentally ill and the county tried to get him help to no avail. You know nothing and are trying to mis-lead the public into believing something to be true that isn't. You take statements and twist them into your liking and quite frankly I am sick and tired of how you have turned our board into a very dysfunctional one. You and Brett Strong think you know it all and you know nothing. Keep away from my mailbox and quit trying to cheat the federal government with your flyers and do the honest thing like Klarkowksi and Montez do.
